

Dear Shadow Ridge Subdivision Customer,

Eagle Ridge UOC, a member of the Central States Water Resources (CSWR) family of companies, is proud to be your community's wastewater service provider since September 30, 2018. Over that time, we have worked closely with state regulatory agencies to ensure we are consistently in full compliance with all regulations by meeting or exceeding standards for service. Across the state of Arkansas, CSWR has invested more than \$5.1 Million into sewer utility infrastructure, significantly increasing the quality and reliability of service for all our customers, and would like to provide you with an overview of the improvements we are making in your community.

Ongoing and completed projects at the Shadow Ridge Subdivision wastewater treatment facility:

- A complete overhaul of disinfection and treatment processes
- Upgrade and repair of critical components at the treatment facility, including piping, valves, and tankage
- Conversion of the plant to updated technology to meet environmental discharge quality requirements
- Installation of remote monitoring systems at the treatment facility to detect potential problems before they affect the quality or reliability of services provided

Before – Vegetation in Mechanical Plant

Before – Sludge discharging into local waterway

After – Overhaul of disinfection process

After – Overhaul of plant

Eagle Ridge seeks to charge fair and reasonable rates to customers. These investments in infrastructure and daily operations will require an increase in the rates for your wastewater service. **Your monthly rate will increase from \$64 per month to \$76 per month.** Customers can expect their bill that will mail in mid-August to contain these new rates.

It is important to us that customers have an opportunity to voice concerns or ask questions.
