EDEN ISLES SERVICE INTERRUPTION - CONTINUED

Friday / October 14, 2022

Dear Eden Isles residents:

Following our service interruption notice on Thursday afternoon, we want to share with you that when our technicians excavated the water main yesterday evening, they discovered that the issue was more extensive than originally assessed. Water will continue to be low to no pressure as we continue working to repair the line. We anticipate this repair will be completed by mid-afternoon today. Once water pressure is restored, Eden Isles will remain on the Boil Advisory through Monday.

We apologize for this inconvenience and reiterate our commitment to safeguarding your community under all conditions.

We appreciate your continued patience,
Magnolia Water Utility Operating Company
