

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for Lead and Copper Sampling Lands Point Subdivision SC4050004

Lands Point Subdivision PWS ID SC4050004 violated several drinking water standards over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

We are required to monitor your water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards.

During **January 1 – June 30 2023** we did not complete all monitoring for **Lead and Copper** and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for Lead and Copper and how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	When samples were or will be taken
Lead and Copper	1 Sample Every 6 Months	0	January-June 2023	Q1 2024

What happened? What is being done?

CSWR – South Carolina failed to sample lead and copper. In response to this missed sampling event, CSWR – South Carolina will promptly take the required samples and will distribute the results to the customers who participate in Lead and Copper sampling. To prevent this from reoccurring, CSWR – South Carolina and our operating partners are providing staff with additional training, enhancing communications, and implementing a reoccurring workorder system. CSWR – South Carolina is committed to delivering safe, reliable, and environmentally responsible water.

For more information, please contact CSWR-South Carolina at 1-866-747-0493 or support@cswrsouthcarolinauoc.com

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
