

COMMUNITY UPDATE: Post-Hurricane Ian

Monday / October 3, 2022

4:00 pm CST

CONTINUED BOIL WATER ADVISORIES IN EFFECT

for the following Service Areas:

- **North Charlotte**
- **Winding Water**
- **Country Walk**
- **Ponderosa Pines**

We appreciate your patience as we work to pull samples and get state lab tests approved in order to issue Boil Water Lifts as soon as possible. Please continue to check back for updates on **Boil Water Advisories** by scrolling down past a Community Update where they'll be posted with detailed instructions for affected service areas.

WATER CONSERVATION

Please limit your water for emergency uses only. Please avoid using water for laundry, dishwashing, and other non-essential activities. As an additional precaution, we ask that you also limit toilet flushing, within reason. This will help prevent and/or minimize the potential for sewage backups and/or overflow events.

Be safe – be prepared.
