

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
Wellsgate (MS0360068), Lafayette County, MS
Monitoring Requirements Not Met for 2024

Our water system recently violated a drinking water standard. Even though this was not an emergency, as our customers, you have a right to know what happened, what you should do, and what we are doing to correct the situation.

We are required to monitor your drinking water for specific contaminants on a monthly basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 2024, we did not complete all monitoring or testing for bacteriological and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for, how often we are required to sample, how many samples we are required to take, how many samples were taken, when samples should have been taken, and when samples were or will be taken.

Contaminant	Required sampling frequency	Number of samples required	Number of samples taken	When all samples should have been taken
LEAD & COPPER RULE	ANNUALLY	10	8	12/31/2024

We are taking the following actions to address this issue:

Sample containers were shipped to the customer to be collected. Operations discovered 2 samples had not been collected in time to comply with the given deadline issued. Since the oversight, the missing samples have been collected and analyzed and shown to have no exceedances. Great River UOC and the Operations Team have determined that a new Standard Operation Procedure should be established to communicate with the customers that have system sample points to ensure these are managed and collected in the given timeline.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
