

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
Vista Verde Water Systems (TX1700694), Montgomery County, TX
Chemical Monitoring, Routine Major, Q2 2024

VISTA VERDE WATER SYSTEMS PWS 1700694 has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Public water systems are required to collect and submit chemical samples of water provided to their customers and report the results of those samples to the TCEQ on a regular basis.

We failed to monitor and/or report the following constituent and Monitoring Periods: _

<u>Constituent</u>	<u>Monitoring Period</u>
Volatile Organic Compounds (VOCs)	2024
NITRATE	2024

Results of regular monitoring are an indicator of whether or not your drinking water is safe from chemical contamination. We did not complete all monitoring and/or reporting for chemical constituents, and therefore TCEQ cannot be sure of the safety of your drinking water during that time.

We are taking the following actions to address this issue:

CSWR – Texas Utility Operating Company (UOC) did not complete the required sampling for Volatile Organic Compounds and Nitrate during the 2024 monitoring period. Makeup samples have been scheduled and will be collected and analyzed as soon as possible.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
