

*****IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER*****

Mormon Lake (AZ0403014) Coconino, County

Monitoring Requirements not met for Mormon Lake June 2024

During 2024, our water system violated a drinking water standard. Although this is not an emergency, as our customers, you have a right to know what happened, what you should do, and what we did (are doing) to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During **June 2024** we did not complete all monitoring or testing for **Total Coliform**.

What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for; how often we are supposed to sample and how many samples we are supposed to take; how many samples we took; when samples should have been taken; and the data on which follow-up samples were (or will be) taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were (or will be) taken
Coliform	Monthly	0	June 2024	July 2024

What is being done?

Cactus State Utility Operating Company resumed sampling the following month; the bacteriological result of the samples collected and analyzed from July 2024 – present, indicated that no coliforms were present. Cactus State reviewed the sampling and reporting requirements with the Operator to ensure ongoing compliance. Cactus State is dedicated to ensuring the delivery of safe, dependable, and environmentally sustainable water resources to every community across the United States.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
