Abraxas (TX1840034) Parker County, TX

Maximum Contaminant Level Violation Gross Alpha Excluding Radon and Uranium Q4 (Oct-Dec) 2024

The Texas Commission on Environmental Quality (TCEQ) has notified the **ABRAXAS UTILITIES TX1840034** that the drinking water being supplied to customers had exceeded the Maximum Contaminant Level (MCL) for gross alpha excluding radon and uranium. The U.S. Environmental Protection Agency (U.S. EPA) has established the MCL for gross alpha excluding radon and uranium to be 15 pico curies per liter (pCi/L) based on running annual average (RAA), and has determined that it is a health concern at levels above the MCL. Analysis of drinking water in your community for gross alpha excluding radon and uranium indicates a compliance value in quarter four 2024 of 17 PCi/L for EP001.

This is not an emergency. Certain minerals are radioactive and may emit a form of radiation known as alpha radiation. Some people who drink water containing alpha emitters in excess of the MCL over many years may have an increased risk of getting cancer.

You do not need to use an alternative water supply. However, if you have health concerns, you may want to talk to your doctor to get more information about how this may affect you.

We are taking the following actions to address this issue:

CSWR - Texas Utility Operating Company (UOC) is initiating a project to add an additional water source with improved water quality to help eliminate the risk of contamination. While the project is still in its early stages, it is expected to progress quickly.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

For more information, please contact Central States Water Resources Texas UOC Customer Experience by phone at 1-866-301-7725, by email at support@cswrtexaswateruoc.com, or by mail at 1630 Des Peres Road, Suite 140, St. Louis, MO 63131.
