

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Reporting Requirement(s) Not Met for M&M MHP MO1041228

We were required to develop and submit to the State an initial service line inventory that includes all service lines connected to the public water distribution system and characterize the materials of those service lines as either lead, galvanized requiring replacement, non-lead, or lead status unknown. Our system failed to submit an initial inventory of service lines to the Missouri Department of Natural Resources by October 16, 2024.

We developed the initial inventory and notified persons served at service connections with service lines made of lead, galvanized, or unknown materials on 10/28/2024. To view the lead service line inventory, please visit <https://centralstateswaterresources.com/missouri-lsli/>.

Although the failure to report the initial inventory to the State does not create a risk to public health, we are required to inform you of this violation and provide additional information including what we did to correct the situation.

What should I do?

There is nothing you need to do at this time. You do not need to boil your water or take other actions. Remember, boiling water does not remove lead from water.

For more information on reducing lead exposure around your home/building and the health effects of lead, visit the EPA's websites at <https://www.epa.gov/ground-water-and-drinking-water/basic-information-about-lead-drinking-water> and <http://www.epa.gov/lead>.

What is being done?

We submitted the line inventory to the Missouri Department of Natural Resources on 3/31/2025. Since then, we have completed and distributed the 2025 annual unknown service line type notification to our customers on 11/5/2025 and the certification to the state on 12/31/2025 in advance of the July 2026 deadline.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by M&M MHP. Public Water System ID# MO1041228

Date distributed: March 18, 2026
