

Public Notice

At Lake Sherwood Subdivision, your health and safety are our highest priorities. From time to time, regulations require us to share public notices if certain monitoring, testing, or reporting steps are not fully completed.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Reporting Requirements Not Met for Lake Sherwood Subdivision MO6036039

We were required to develop and submit to the State an initial service line inventory that includes all service lines connected to the public water distribution system and characterize the materials of those service lines as either lead, galvanized requiring replacement, non-lead, or lead status unknown. Our system failed to submit an initial inventory of service lines to the Missouri Department of Natural Resources by October 16, 2024.

We developed the initial inventory and notified persons served at service connections with service lines made of lead, galvanized, or unknown materials on 11/5/2025. You can view your system's lead service line inventory at <https://centralstateswaterresources.com/missouri-lsli/>.

Although the failure to report the initial inventory to the State does not create a risk to public health, we are required to inform you of this violation and provide additional information including what we did to correct the situation.

What should I do?

There is nothing you need to do at this time. You do not need to boil your water or take other actions. Remember, boiling water does not remove lead from water.

For more information on reducing lead exposure around your home/building and the health effects of lead, visit the EPA's websites at <https://www.epa.gov/ground-water-and-drinking-water/basic-information-about-lead-drinking-water> and <http://www.epa.gov/lead>.

What is being done?

We completed the initial service line inventory and submitted it to Missouri Department of Natural Resources on 12/20/2024.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by **Lake Sherwood Subdivision**. Public Water System ID# MO6036039.

Date distributed: August 17, 2026
